CAREER OBJECTIVE

Motivated Computer Science and Engineering (AI) student with experience in software development, machine learning, backend technologies, and cloud platforms. Passionate about building practical solutions, learning emerging technologies, and contributing to impactful software and AI-driven applications.

EXPERIENCE

Software Developer Intern – Negals Technologies Pvt. Ltd.

June 2025 – Present

- Developed and maintained Django-based web applications with modular architecture and secure authentication.
- Built and integrated RESTful APIs using FastAPI with emphasis on validation, error handling, and scalability.
- Managed data storage and retrieval using MySQL, optimizing queries and relationships for performance.
- Deployed applications on Amazon Web Services (AWS) using EC2 and managed configurations for testing and production environments.
- Created interactive dashboards and analytics reports using Power BI for data-driven insights.

Skills: Django, FastAPI, Flask, MySQL, AWS (EC2), Python, REST APIs, Machine Learning, Pandas, NumPy, Power BI.

PERSONAL PROJECTS

CropSense – AI-Powered Crop Recommendation System

[Link](#)

- Developed an AI-powered crop recommendation system using Flask and Scikit-learn to predict suitable crops based on soil nutrients and climate conditions.
- Designed an interactive dashboard featuring crop insights, region-based recommendations, soil analysis, and pesticide recommendations.

Skills: Python, Flask, Machine Learning, Scikit-learn, Pandas, NumPy, Data Analysis, Model Training, HTML, CSS, JavaScript, Git, REST APIs.

Object-Oriented Banking Simulation API (FastAPI)

[Link](#)

- Built REST endpoints for create/deposit/withdraw/transfer/balance with typed **Pydantic** schemas and strict validation.
- Centralized rules via **OOP** (User, Account, Ledger) and standardized errors using **HTTPException** with clear JSON/status codes.

Skills: FastAPI, Python, OOP, Pydantic, SQLAlchemy, HTTPException, REST API Design, Unit Testing.

Personal Portfolio Website (React)

[Link](#)

- Developed a responsive portfolio website using React and Tailwind CSS to showcase projects, skills, and achievements.

Skills: React, TypeScript, Tailwind CSS, Vite, Responsive Design, Vercel.

TECHNICAL SKILLS

Programming	Python, JavaScript, SQL
Backend	FastAPI, Django, Flask, REST APIs
Machine Learning	Scikit-learn, Pandas, NumPy, Data Preprocessing, Model Training
Databases	MySQL, SQLAlchemy ORM, Django ORM
Tools	AWS (EC2), Git/GitHub, Swagger/OpenAPI, Power BI, VS Code
Web	HTML, CSS, Tailwind CSS
Concepts	Object-Oriented Programming, Authentication, API Development, Database Design, Data Structures

EDUCATION

B.Tech in Computer Science and Engineering (AI)

Expected 2026

G. H. Raison College of Engineering

CGPA: 7.94

Diploma in Computer Engineering (CS)

2023

Anjuman Polytechnic

Percentage: 70.51%
